Subject: Charging a fee to use Ct. highways

My statement is going to upset some and be dismissed by others. Here it is: All entrances and exits should be pay too use. It would cut down on people hopping on one entrance and popping off another which slows down traffic and creates backups. The highway was never meant for short distance travel but too move long distance travel quickly threw the state. This would be fare to all. " USE THE HIGHWAY / PAY FOR ITS USE"
