Subject: CT Tolls

I am very concerned about reinstituting tolls in CT. We had them once, then decided we didn't need them anymore.

If I thought it would improve jobs for our citizens, that might make it sensible. If I thought it might help reduce our deficit, perhaps that might make sense.

However, I see no evidence that anyone in our State Gov has fully analyzed this situation. Until that occurs, it is insane to even consider tolls.

thx.
