Subject: say no to tolls

I am against tolls on ct.'s roads. the cost of building, maintaining, and collecting tolls will not be a 1 time expense. there is no such thing as a lock box in ct. the current lock boxes have a back door to be emptied when the gov. asks the legislature to move the collected revenue, ie. state tax on gasoline at both the retail and wholesale level, to the general fund. this idea from gov. malloy is smoke and mirrors. I am quite sure the added toll areas will produce accidents, additional pollution and traffic congestion. SAY NO TO TOLLS. Bob Fuhr, Weston, ct.
