Subject: Say NO to TOLLS

If you want to lose more Connecticut tax payers and businesses then put tolls in. My kids and their families, as well as a few of my neighbors are seriously considering moving out of this state because of the burdensome taxes and fees. Instead of looking for ways to cut your bulging and useless government bureaucracies and buying your next votes with tax payer funds, you should finally grow up and realize that what you all are doing is not sustainable and decent hard working people are finally seeing what has been happening in your government, **grow up** and do the right thing for the hard working people of this state. Cut the waste and non-essentials out of state government !

Regards,
Gene
