

Hello,

I'm a 30 year CT resident and I'm against bringing back tolls into the state. The following are a few reasons why I'm against them:

- Drivers will try to avoid tolls by taking local roads, which will put wear-and tear on these local roads
- Drivers who live near the state line and work in nearby States - NY, MA, RI, will be most impacted, as they will be crossing the state line each and every day for employment, which essentially is a pay cut.
- Shopping Centers, like the Danbury Fair Mall or big chain stores (Home Depot/Costco/BJs/Lowes, etc.) will be impacted, as NY residents will think twice into coming into CT to shop

Since I'm unable to testify in person on Monday due to my work schedule, pls. accept this note as my testimony for "No to Tolls" in the State of CT.

Donna Horree
