I'm taxed to death in this state... Every time there's another article on the net comparing states from best to worst on taxes, CT ranks the first (or sometimes 2nd) worst out of all 50. I'm sick of it!! Now you want another tax to hit every time I need/want to go somewhere in my own state? Enough!! I've lived in CT since the 1970's and had to live with the constant, continual increasing taxes. Stop grabbing my ever dwindling pocketbook. I can't afford your appetite!!
