**Subject:** ELECTRONIC TOLLS ON CONNECTICUT'S HIGHWAYS.

Working CT citizens are already taxed more than citizens in most other states. We do not need yet another tax (which is what this is but by another name)!

My suggestion is to reduce spending. One way to do this to get people who are on welfare off welfare. To start that process, those who are receiving welfare and are able bodied, except for mothers who are taking care of small children, should be required to work for their money - report for work or training.

Once they are off welfare, and are paying into the system, CT's expenses will decrease whereas CT's revenue will increase.

NO NEW TAXES, WE ARE ALREADY TAXED ENOUGH!

Thank you,  
Karen Miller
