**Subject:** Tolls

To add tolls to ct road ways is nothing more than another tax on our residents . It has been suggested that the monies raised from tolls will be placed in Lock box . There is only one problem with a Lock Box it can be picked or stolen and I have a huge problem with the Financial Mismanagement of our State that demand ever increasing oppressive taxes on our residents

CT could institute a system similar to the one that is now in place on the Mass Pike however , just because I wouldn't be inconvenienced by having to her in line and pay the toll fee doesn't mean that I want to make another contribution to our treasury when it is unnecessary and regressive.
