Subject: No tolls!

Tolls will cripple our dwindling economy if that is even possible. Our roads like rat 95 are an embarrassment. Does anyone pay any attention to the fact that Ct is losing businesses and people at record rates! Our taxes are out of control! Adding another financial burden simply is not logical. Any average politician can "solve" the problem by dipping into the pockets of the people but a true leader solves problems creatively not taking the easy way by raising taxes which this is. Tolls are not the answer and by the way neither is a mileage tax!

Respectfully

Armand Uomoleale
