Subject: NO TO Bill 560, Bill 751, and Bill 6058

PLEASE VOTE NO TO **Bill 560, Bill 751, and Bill 6058**

This thinking is not a solution to too much improper spending and a willingness to thoroughly investigate wasteful appropriations. The Connecticut budget needs an overhaul and re balancing, *not tolls* to clog already jammed roads and deter travelers and businesses from coming here.

I live at the entrance to Connecticut-what would you have me do as a person with a very limited income? Do you intend to trap us in Connecticut because of the incompetence and greed of a governor who is ruining quality of life for seniors and children?

Think about it before you register votes that your constituents DO NOT WANT!
