Subject: Support CT SB00359, An Act Prohibiting The Disaggregation Of Student Data

To: The Respectable Education Committee

My name is Edwin Cobb and I am a native born American citizen living in Stamford, Connecticut and husband to an American Chinese woman. My family originally arrived in Massachusetts in the mid 17th century, in the pursuit of a better life, liberty and happiness.

Many generations later, the wish and desire of my ancestors has been realized, thanks in part to a lot of hard work, but most importantly because of the United States Constitution. A document, as you know, guarantees the right of immigrants to certain inalienable rights, rights that might be denied in Connecticut if the Asian registry legislation is allowed.

This is particularly ironic, because as you know Connecticut was the first state to ratify the Constitution, And the unity and equality so beautifully outlined in that document that helped lay the foundation of our country, that has protected American citizens for over 225 years, was meant to be as relevant now as when it was created.

It was the firm objective of our founding fathers that the United States Constitution should stand the test of time, to protect the rights and liberties of whoever comes upon our shores regardless of race, creed or color.

Therefore, I support and respectfully request that you vote yeah for Bill SB00359!

Thank you for your time and consideration.

Edwin Cobb
