Honorable Members of Education Committee:

My name is Kevin Lu. I am a 9th grade student at Amity high school. I am writing to testify in support of bill No. SB359.

America is the melting pot, it is the Union of States, the Union of Democracy and ideals, the Union of Beliefs and religion, the Union of red and blue and white, and the Union of Peoples. America is the beam of light, the beacon of hope never seen before upon this world from which to lead mankind in a new direction of freedom. This light is not white, nor black, nor brown, nor yellow, nor any other color, but it is one that contains the rainbow, and one that should not, and cannot, be truly divided. And so, if a day will be chosen that the unity of this beam is never broken, if the unity of that beam is upheld to light the torch and open the eyes of many, then I, perhaps but a child, will ask that it cannot be tomorow or four score and seven years from now. It must happen today, it can happen today, and it shall happen today.

Please modify the bill language as to “No population of students shall be subject to data collection of ancestry nation of origin and ethnicity origin”. Please vote for bill SB359.

Kevin Lu

9th grade at Amity Highschool
