Testimony before the education committee

Honorable Members of Education Committee: My name is Pei Sun. I have been living in Durham CT since 1990. My family has six people, and we are all U.S. citizens.

Today, I am here in support for Bill SB 00359. “Prohibiting the Disaggregation of Student Data by Ethnic or Racial Subgroups in the Public School Information System”

I believe every US citizen has equal rights in this land, and so did our Founding Fathers. So why is Asian Registry singled out small percentage of population?

Asian people, Asian students, are all singled out and our data is collected. Where we come from, if we’re from China, Korea, Vietnam, Thailand, it is recorded and this information is never required of other races. This strangely specific inquiry not only isolates Asians but it also has seemingly odious implications.

Asian registry is unconstitutional action, It is absolutely discriminatory action. Why must we be interrogated and recorded, while others are not?

As a American Citizen, a many years CT resident, I sincerely ask you to support the Bill No: SB 00359.

Sincerely

Pei Sun. MD.
