Honorable Members of Education Committee:

My name is Xiaoli Tang, a resident of Farmington CT. I am writing to testify in regard of bill No. SB359 “Prohibiting the Disaggregation of Student Data by Ethnic or Racial Subgroups in the Public School Information System”.

I support the original concept of “prohibiting educational institutions or other state agencies from mandatory collection and separation of data from students by subpopulations of national origin or ethnicity”. However, we are very concerned in regard of this portion of the current bill language “unless ... collected uniformly across the entire population of students”. I believe the entire population shall not be subject to registry of ancestry immigration nation of origin or ethnicity origin.

I am supporting the original concept because everyone in this country should not be divided by skin color or nation of origin. The pledge of Allegiance gives us a clear concept what does this country stand for. All the people live in this country should not be divided by Ethnic or Racial subgroups. Please modify the bill language as to “No population of students shall be subject to data collection of ancestry nation of origin and ethnicity origin”.

Please vote for bill SB359.

Xiaoli Tang
