Honorable Members of Education Committee:

My name is Ke Wang, a resident of Connecticut for ten years. I am a professional in chemical and pharmaceutical research. I am also the Vice Principal of the Southeast Connecticut Chinese School (SCCS). I am writing to testify in regard of Bill No. SB359 “Prohibiting the Disaggregation of Student Data by Ethnic or Racial Subgroups in the Public School Information System”.

I strongly support the original concept of “prohibiting educational institutions or other state agencies from mandatory collection and separation of data from students by subpopulations of national origin or ethnicity”. However I am also very concerned in regard of this portion of the current bill language “unless… collected uniformly across the entire population of students”. I believe the entire population shall NOT be subject to registry of ancestry immigration nation of origin or ethnicity origin.

I came to United States 20 years ago believing this is the land of equal opportunities. 20 years after, I have settled on this land, married to the one I love and having our son, Dennis, our pride and joy. We have never doubt this is the land and nation, as Dr. King said, for our children to live where they will not be judged by the color of their skin, but by the content of their character.

My son was born in US and he goes to public school in Waterford, Connecticut. My husband and I were naturalized American citizens. America is a country of immigrants. Generations of immigrants have contributed, enriched and reshaped a constantly evolving identity of being Americans. But it is one identity nevertheless. The idea of subgrouping students by their ancestry ethnicity will no doubt do more damage than good to America’s future. No kids in school should be labelled differently. We don’t want to see one day some policies and practices are formed based upon his nation of origin or ethnicity which most of the time meant well, but can lead to discrimination and cause harm. We don’t want to him to be seen as “another kind of American”. This is why I am strongly support legislation that ban labelling kids as perpetual foreigners in name of data collection.

We are proud of our heritage, but race and ethnicity should never be criteria to categorize people. This great nation was built upon the notion that “All men are created equal”.

Please modify the bill language as to “No population of students shall be subject to data collection of ancestry nation of origin and ethnicity origin”. Please vote for Bill SB359.

Thank you for your attention and I look forward to a favorable decision.

Yours truly,

Dr. Ke Wang
