Dear Honorable Members of Education Committee:

My name is Chunsheng Yang, assistant professor of Chinese and applied linguistics at the University of Connecticut. I am writing to testify in regard of bill No. SB359 “Prohibiting the Disaggregation of Student Data by Ethnic or Racial Subgroups in the Public School Information System”.

I support the original concept of “prohibiting educational institutions or other state agencies from mandatory collection and separation of data from students by subpopulations of national origin or ethnicity”. However, we are very concerned in regard of this portion of the current bill language “unless … collected uniformly across the entire population of students”. I believe the entire population shall not be subject to registry of ancestry immigration nation of origin or ethnicity origin.

I am supporting the original concept because I believe that educational equality is the most fundamental right for everyone and ancestry immigration nation of origin or ethnicity origin does not play any role of whatsoever in education and should not be taken into consideration.

Please modify the bill language as to “No population of students shall be subject to data collection of ancestry nation of origin and ethnicity origin”. Please vote for bill SB359.

Thanks a lot.

Sincerely,

Chunsheng Yang
