

Dear Environment Committee of the Connecticut General Assembly:

I am in support of HB 5363 (AN ACT ESTABLISHING A CARBON PRICE FOR FOSSIL FUELS SOLD IN CONNECTICUT) regarding the pricing of carbon in Connecticut. This bill would make our communities more productive and help safeguard the health of residents of Connecticut, in addition to being forward thinking and doing the right thing for life on Earth. This bill offers a great incentive for significant and positive change. I hope that Connecticut can join with other states in being leaders on this important issue. Please support this critical legislation!

Thank you for all your hard work and kindly let us know whether you will vote for this bill.

Sincerely,

Kathleen and Dan Magner
Easton, CT
