

Dear Environment Committee of the Connecticut General Assembly,

I'm Kathy Weber, and I live in Middlefield, CT.

I'm writing to declare my support of Bill 5363 regarding carbon pricing. People aren't going to act fast enough to take care of our environment and limit the use of fossil fuels unless we impose a financial motive for them. We need to act NOW so that we don't regret this lost opportunity to protect our planet for future generations.

In this age of national embarrassment environmentally, I hope to be proud that my state of Connecticut is doing the right thing to protect this beautiful ecosystem that we all depend on.

Thank you,

Kathy Weber
