

Honorable Senator Miner, Senator Kennedy, Representative Demicco and distinguished members of the committee.

Please permanently ban fracking waste in CT. Fracking waste contains radioactivity and unknown dangerous chemicals that the industry refuses to divulge. I do not want Connecticut to bear the burden of treating this hazardous waste or even allowing the waste to flow through CT.

We need to invest in clean, renewable energy now. Fracking waste is hazardous and should be permanently banned from our state.

Thank you.
