

Honorable Senator Miner, Senator Kennedy, Representative Demicco, and distinguished members of the committee;

I am in favor of SB 103 and ask you to please support this bill?

Over the years I have seen many environmental changes that are man made and have had negative impacts on the health and well being of our citizens.

SB 103 is an opportunity to protect our citizens, now and for future generations. As you know, fracking waste is carcinogenic and has no place in CT. I ask that, by your actions, SB 103 is passed, protecting residents and our environment.

Sincerely,  
Carol Ann Brooks
