Subject: Senate Bill 103 testimony

Reference: Testimony for Senate Bill 103 "An Act Concerning Hydraulic Fracturing Waste in CT"

To: Honorable Miner, Senator Kennedy, Representative Demicco, and distinguished members of the committee,

This letter comes with a plea to permanently ban toxic, radioactive fracking waste in CT. Our environment, health, property values, town and state budgets cannot afford the accidents, spills, leaks and inadequate treatment followed by discharge that are contaminating other states. There are thousands of spills in other states with regulations and waterways are already radioactive. We need to ban this waste in CT so we don't face the same contamination problems here.

Kindly consider this

Respectfully yours,
Marianne Schorer
