 60 by said agency, such application shall be deemed approved] Unless an  
 61 applicant provides the department with additional time, in writing, the  
 62 department shall ensure that all deficiencies in any of the applications  
 63 for a permit described in this section are identified and the applicant  
 64 notified, in writing, of such deficiencies not later than ninety days after  
 65 the department received such application.

66 Sec. 2. (NEW) (*Effective from passage*) The Commissioner of Energy  
 67 and Environmental Protection shall establish a pilot program that  
 68 authorizes the use of not more than two licensed environmental  
 69 professionals, as described in section 22a-133v of the general statutes,  
 70 by the Department of Energy and Environmental Protection for the  
 71 purpose of expediting the issuance of permits. Any expense related to  
 72 the use of such licensed environmental professionals shall be  
 73 recovered by the department through any applicable permit fee for  
 74 those permits that are expedited by such use. The commissioner shall  
 75 retain all authority for the issuance of any permit pursuant to such  
 76 pilot program.

This act shall take effect as follows and shall amend the following sections:		
Section 1	<i>from passage</i>	22a-6ee
Sec. 2	<i>from passage</i>	New section

The following Fiscal Impact Statement and Bill Analysis are prepared for the benefit of the members of the General Assembly, solely for purposes of information, summarization and explanation and do not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst's professional knowledge. Whenever applicable, agency data is consulted as part of the analysis, however final products do not necessarily reflect an assessment from any specific department.

**OFA Fiscal Note****State Impact:** None**Municipal Impact:** None**Explanation**

The bill requires the Department of Energy and Environmental Protection (DEEP) to make best efforts to make a final determination on complete permit applications within 90 days. This has no fiscal impact, as approximately 80% of general and individual receive a determination by DEEP within 90 days.

Additionally, the bill requires DEEP to establish a pilot program allowing two licensed environmental professionals (LEP's) to expedite the issuance of permits. This provision is not anticipated to result in a fiscal impact as the bill requires DEEP to recover LEP expenses through permit fees.

***AN ACT CONCERNING NINETY-DAY PERMIT TURNAROUND TIMES FOR THE DEPARTMENT OF ENERGY AND ENVIRONMENTAL PROTECTION.***

**SUMMARY**

This bill requires the Department of Energy and Environmental Protection (DEEP) to make best efforts to review and make a final determination on certain permit applications within 90 days, as long as the applications are complete. DEEP must identify, and notify an applicant in writing of, all deficiencies in an application within 90 days of receiving it. The applicant may grant DEEP additional time for its review in writing. The bill applies to permit applications received by DEEP before, on, or after the bill's passage.

Under current law, specified applications are automatically approved if DEEP does not make a final determination on them within 90 days. The bill eliminates this automatic approval provision.

The bill applies its new timeframe requirements to 29 specified types of permit applications, as shown in Table 1. Current law's automatic approval provision applies to 45 types of applications, some of which are not for permits.

Lastly, the bill requires the DEEP commissioner to establish a pilot program that allows the department to use up to two licensed environmental professionals (LEPs) to expedite the issuance of permits. But the commissioner retains authority for issuing the permits. The bill requires DEEP to recover LEP expenses through the applicable permit fees for permits expedited under the program.

EFFECTIVE DATE: Upon passage

## PERMIT APPLICATIONS AFFECTED

Table 1 identifies the 29 types of permit applications to which the bill's timeframe requirements apply and the applicable statutory or regulatory citation for each such permit, as identified in the bill. Most of these applications are subject to the current law's automatic approval provision.
