

Dear Government Administration and Elections Committee,

I'm a Connecticut voter who believes we need to reform the Electoral College. It is disturbing and undemocratic that our presidential elections are not decided by majority will. Our country has suffered enough from this arcane system of choosing the president. Faith in our institutions are at an all time low and it's time that we do something about it. I support the Act Adopting an Interstate Compact to Elect the President of the United States by National Popular Vote. Please support HB 5421 to help restore faith in democracy!
