

HB 5471 I see you hate the constitution therefore you want it changed. You know as many know that now so many Americans are communist/socialist that you have to have a popular vote to win because you have completely ruined three large states with your communism That hold a lot of people. So trash this and leave the constitution along for there isn't one in congress to come close to what the founders has done nor ever will.

Sincerely,

Ron Fenner
