

Hello,

It is absurd to continue to use an outmoded undemocratic system to elect our President using an electoral college. All democracies use the popular vote method to elect their President . We should do the same as we need to strengthen our democracy. In addition we should not be suppressing voting, we should encourage more voting by everyone instead of inserting restrictions.

The best way is to allow each state to cast their electoral votes for the winner of the popular vote. In that way we can assure ourselves that we are following the will of the people, otherwise we are defrauding our fellow American citizens.

There is no sane reason not to support this proposal. Also in this way we can have Presidential candidates visit our state otherwise they do not. This is important for our State's economy, voting against this bill means you are not in favor of helping businesses small and large in our great state of Connecticut

Thank you

Edward C Saenz
