

I urge CT State legislators to vote YES for a hearing and approval of HB5421, the National Popular Vote Compact. Republican and Democrat voters can clearly see the damage that is done by the current electoral process. The votes of all CT citizens are wasted with the current electoral process and I resent that. The voice of all voters needs to be heard. Have the courage to give the voters the same opportunity of expression as citizens in other states. This is the 21st century, not the agrarian 18th century.
