

Dear Members of the GAE Committee:

I support Bill 5421: An Act Adopting and Interstate Compact to Elect the President of the United States by National Popular Vote. Our current electoral college system disenfranchises many voters and discourages voters in states where the electoral college vote is believed to have been won before the election even takes place. I strongly believe in one person, one vote and ask that you support this bill so we move closer to achieving this right.

Thank you,

Sharon M. Ware
