

As one of many CT Brewery owners, I fully support House Bill 5036.

The limit laws that are imposed on CT's craft brewers are not only archaic, they are not imposed on CT's wine producers; proving they are unjust. Furthermore, the liter limit is hurting all CT Craft Brewers at a time where we stand to pump money into CT's economy.

Considering CT's budget deficit, if House Bill 5036 does not pass, I ask who's interests are being served, as it clearly would not be the people's. It would be one more log on the fire of how CT's government can't take the opportunities given to them to get them out of the financial hole they're in.

Thank you.
