Subject: CT.General Assembly.,Judiciary Committee.,Re: SB487., Legalizing Cannabis.

Please consider as testimony regarding legalizing cannabis. I think the state would benefit financially. Neighboring states have, or will legalize cannabis. As a medical patient, I would like to be able to grow cannabis for my personal treatment. I thank Connecticut for allowing medical use. I thank the professionals involved in Connecticut's medical cannabis program. I am benefiting from this treatment.

Thank you for considering my comments.
