Subject: Testimony re: SB 487

3/15/2018

Esteemed Members of the Judiciary Committee,

I am writing to you today in support of Raised Bill 487. I have been a marijuana user for 47 years. I can attest to the factual medical benefits of using this natural plant. I do not take prescription medications containing who knows what man made chemicals. I rely on natural marijuana with no devastating, deadly side effects. Thank you for taking the time to consider my testimony.
