

I full support "HB 5129, An Act Establishing A Save Our Lakes "Number Plate to Combat Aquatic Invasive Species and Cyanobacteria Blooms".

Please pass this so that individuals can bring awareness to how important our lakes are to us by having this lincet plate and also away to support DEEP.

If we do not help control and hopefully stop the invasive plants on our lake soon they will be gone. Effecting many people and living creatures.

I own property on Bashen Lake in East Haddam Ct.

Sincerely, AnnMarie Galdenzi
