

Dear Honorable Chairs & members of the ct environment committee . My name is Mike g Papa from Stamford ct. ((In our HUMBLE OPINION .)) This sewage spills problems we experience today reflect the POOR SEPTIC SYSTEMS in place ! As of today we continue to FAIL MISERABLY to practice excellence . As a result there is not to many HIGH QUALITY systems in place here in Connecticut today ! Unless we change our over all strategy from a MEDIOCRE one to EXCELLENT one there would not be an improvement in reducing the pollution. I feel DEEP it is failing to provide CLEAR SOLUTIONS in this regard as of today. We hope it will be able to change for the near future . ((Therefore I am NEUTRAL in this regard.)) To make this a POLITICAL FOOT BALL today makes no sense to warn people only to favor legal issues to take place . This is more a public health issue not a legal one . As It still will not solve the problem unless we improve the systems that we all know need improvement . Sincerely. Mike g Papa.
