

Re: Senate Bill 103

I am Leticia Colon de Mejias of Windsor, CT.

I have been a Connecticut tax payer and resident most of my life. As a mother and environmentalist I am writing in support of Bill 103.

We must protect Connecticut and it's residents from the well documented dangers of fracking waste.

Senate Bill 103 has a chance of changing state law and creating a permanent ban of waste from one process, hydraulic fracturing, from gas wells only.

Connecticut will continue to pass more comprehensive local bans and 36 towns now have ordinances, over 15 more are pending.

This strong show of local leadership and local bans fracked waste is a statement in the values of Connecticut's residents.

I implore our leaders to continue to support action to protect our environment and human health from the negative impacts of fracked waste .

Respectfully,

Leticia Colon de Mejias
