

Dear Senator Miner, Senator Kennedy, Representative Demicco and members of the Environment Committee,

I urge you to support Senate Bill 103, "An Act Concerning Hydraulic Fracturing Waste in CT". Please stop this toxic substance from finding its way into our rivers, streams, ground water, soil and air, all of which will eventually lead into our bodies.

I live in Hebron and in 2017 we passed a town ban on fracking waste to protect our environment. It is now time for you to follow with a state wide ban to protect our family and friends in every part of Connecticut.

Please send a message, loud and clear, that Connecticut will not be sold for use as a dumping ground for toxic waste.

Please support Senate Bill 103.

Sincerely,

Jean Tulimieri
