Senator Ted Kennedy Jr., Co-Chair
Environment Committee
Room 3200
Legislative Office Building
Capital Avenue
Hartford, CT 06105

Dear Senator Kennedy:

Current powered by GE offers LED street lighting in its EVOLVE series in various wattages ranging from 14 watts to 97 watts.

If a customer selects a specific wattage LED streetlight, there will be no cost differential for that wattage when it comes to selecting a correlated color temperature of 2700K, 3000K or 4000K.

All three correlated color temperature specifications would cost the same price for a given wattage.

If you have any questions, please feel free to call.

Thank you,

Parm Girn, P. Eng
