Testimony regarding HB 427: An Act Concerning The Public Trust Component of  
The State Water Plan

To:  
Senator Ted Kennedy  
Senator Craig Miner  
Representative Mike Demicco  
And members of the Environment Committee

I am a 50-year citizen of Salisbury Connecticut.

To me, changing the language in this bill to “exempt private drinking wells” violates the concept that all water is a natural resource, comes from connecting aquifers and is in the public trust.

All water sources should be protected, and I am opposed to this bill.

I support leaving the language as it is in the existing statute.

Thank you for the opportunity to testify.

Sincerely,

Judith H. Gott,  
87 Canaan Road  
Salisbury, Connecticut
