Department of Energy and Environmental Protection	GF - Revenue Gain	Minimal	Minimal

Note: GF=General Fund

Municipal Impact: None

Explanation

The bill requires the Department of Energy and Environmental Protection (DEEP) to allow for the use of alternative treatment septic systems under certain conditions.¹

Expanding the use of alternative treatment septic systems is anticipated to result in a minimal revenue gain associated with increased issuance of general permits for this purpose.

The preceding Fiscal Impact statement is prepared for the benefit of the members of the General Assembly, solely for the purposes of information, summarization and explanation and does not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst's professional knowledge. Whenever applicable, agency data is consulted as part of the analysis, however final products do not necessarily reflect an assessment from any specific department.

¹ An alternative treatment septic system consists of a sewage treatment system that uses a method of treatment other than a subsurface sewage disposal system and involves a discharge to groundwater.
