Explanation

The amendment strikes the underlying bill and its associated fiscal impact, replacing it with language that: (1) establishes an opioid epidemic working group, (2) establishes certain opioid overdose data reporting, and (3) requires municipal and district health departments to develop preventative initiatives to address drug overdoses by 1/1/20. There is no fiscal impact to the state or municipalities from working group and data reporting requirements, but the provision of preventative initiatives may result in a cost to municipal and district health departments in FY 20 and the out years. Costs will vary based on the scope of established initiatives.

The preceding Fiscal Impact statement is prepared for the benefit of the members of the General Assembly, solely for the purposes of information, summarization and explanation and does not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst’s professional knowledge. Whenever applicable, agency data is consulted as part of the analysis, however final products do not necessarily reflect an assessment from any specific department.
