

I am writing in opposition to HB 5416 on the grounds that it represents a dangerous abuse of free speech. When we allow infringements on that critical freedom, we are weakening the marketplace of ideas. I firmly believe that all views within the bounds of our Constitution must be able to be expressed and heard. Interestingly, this bill would serve to encourage a culture of murder – far from the culture of love and life that we should be nourishing. HB 5416 would, then, help to kill two freedoms – those of speech and life.

Please oppose HB 5416.

Thank you.
