

Dear Legislators:

This is to bring to your attention that the allegations of false advertising in the case of ABC Women's Centers are, in themselves, false. I personally have visited their Middletown office, have perused their website, and their pamphlets and see absolutely not a shred of deception in their materials. They merely offer an alternative to abortion for people who face a difficult pregnancy. In addition, they offer services and support past pregnancy, until a child reaches two years of age. It's something our society needs. Although I personally am a left-leaning Democrat in almost all socio-political matters, I fully support the work of ABC Women's Centers, and hope you will too.

Sincerely yours,
Kathleen Carr
