

Dear Legislators, Please VOTE NO on Bill 5416

I live in Middletown and am very involved with organizations that help all our local neighbors who have needs like food, housing, financial and behavioral problems.

ABC Women's Center in my city is one of them. For 28 years they have been helping women and their families in many ways when they have pregnancy problems. Everything they say on their website and any information they pass out is true. The church I belong to is always helping them support their clients in many ways. We have many volunteers who go there and also who are on their board of directors.

Do you think our present or past Pastors or Bishops would let us support an organization for 28 years that lies to people?

These services for no reason I can understand are being protested against by groups like NARAL who have come from Hartford to protest in front of the ABC Women's center saying they are liars. I never see any false advertising and their website is correctly detailed about what they

do. Bill 5416 does not even include organizations like NARAL or Planned Parenthood who are always trying to get politicians and liberal organizations to pass legislation like this. Why do they not have to apply by these laws?

This bill should not pass and it has being found to be illegal in many other states by their Supreme Courts.

Bill Maune
