

My name is Laura Miller and I am testifying in opposition of HB 5416.

During my first pregnancy, I could not afford birthing classes. ABC Pregnancy Center made it possible for me to learn all about labor and delivery at no cost. But it goes beyond the service they provided for me. I was given confidence because I was properly educated. I was given a service at no cost, one less thing to worry about during a very stressful pregnancy. My insurance did not cover my delivery, so any financial aid gave me some peace of mind. I could only imagine what other women who are less fortunate will have to do if they did not have free services from pregnancy centers. Centers like ABC Pregnancy Center are changing society for the better. They empower women and give families the tools they need to thrive.
