

Gentlemen:-

I wish to register my opposition to the proposed bill HB5416. I have watched for some time the gradual decay in the morel standards of our country and our state. It is time to call a halt if the present trends of morel decay continue we will next put an age limit on how long people can live. This may seem like a ridiculous proposal but so would abortion, legalized gambling, legalized pot, and many other changes that have occurred over the last 40 years. PLEASE VOTE AGAINST THIS PROPOSAL, for the sake of souls and our children.

Michael Shelto
