

Dear CT Legislature

I am writing to ask you to approve HB 5417 and finally get a law passed to allow medical aid in dying in my home state of Connecticut for the past 78 years. The number one concern that my generation and friends have discussed with me is to not outlive our assets. A close number two is to be able to control our destiny in the closing years of our lives and that is what this legislation will give us.

Please allow this to happen.

Sincerely,
Clawson Smith
Cos Cob, CT
