

Please support

"AN ACT CONCERNING END-OF-LIFE CARE.

To allow a physician to dispense or prescribe medication at the request of a mentally competent patient that has a terminal illness that such patient may self-administer to bring about his or her death."

Once I hit my 50s I started being present at family members' death and all I can tell you is that I will not allow myself to go as far down and in as much pain as I have seen.

Please, be kind, be compassionate for the person transitioning to death, support this bill.
