

Why would anyone want to have someone decide to exterminate them from this world when there is still so much to enjoy. Yesterday I went to a concert right here in Connecticut, only to hear the most MAGNIFICENT VOICES perform for ALL the parents & grandparents, etc. Covered with goose bumps, with tears running down our faces, an experience I would never want to miss, and did not have to miss because a precious son cares enough about me to drive a good two hour drive. I am not in the best of health, but neither is anyone else who lives here in ST. JUDE COMMONS, but we would NOT HAVE A unknowing person decide as to when we should call it Quits. WE ALL HAVE GOD to decide that for us. THROW THIS BILL OUT FOREVER&EVER!!!!!!!
