## **OLR Bill Analysis**

### **HB 7301**

#### ***AN ACT CONCERNING THE DEPARTMENT OF PUBLIC HEALTH'S RECOMMENDATIONS REGARDING REMOTE ACCESS TO ELECTRONIC MEDICAL RECORDS BY THE DEPARTMENT OF PUBLIC HEALTH.***

#### **SUMMARY**

This bill grants the Department of Public Health (DPH) access, including remote access, to hospital electronic medical records on reportable diseases and emergency illnesses and health conditions, in a manner the commissioner approves (see BACKGROUND).

It also grants the department remote access to hospital records related to the Connecticut Tumor Registry, as the department deems necessary to perform case findings or other quality improvement audits (see BACKGROUND). Existing law already grants the department access to health care provider records for this purpose.

By law, these records generally (1) are confidential and not subject to disclosure, (2) are not admissible as evidence in any court or agency proceeding, and (3) must be used solely for medical or scientific research or disease control and prevention purposes.

The bill also makes technical changes.

EFFECTIVE DATE: October 1, 2019

#### **BACKGROUND**

##### ***DPH Reportable Disease List***

By law, DPH maintains an annual list of reportable diseases and emergency illnesses and conditions and reportable lab findings. Health care providers and clinical laboratories must report cases of the listed conditions within certain timeframes to the department and the local health director where the case occurs.

***Connecticut Tumor Registry***

By law, the Connecticut Tumor Registry includes reports of all tumors and conditions that are diagnosed or treated in the state for which DPH requires reports. Hospitals, various health care providers, and clinical laboratories must provide such reports to DPH for inclusion in the registry.

**COMMITTEE ACTION**
