

HB7082-

Full American history must be taught in all CT schools. We must teach them how to avoid the mistakes of the past. We must teach them about institutional racism and bias of certain cultures.

We are a family that lives in Madison Ct, and unfortunately we have dealt with racial issues in our town. The kids here aren't exposed to enough diversity and it is hurting our children and it will disable our children in the future, if they are not able to live in a world that is diverse.

Madison CT does not represent the working world or the globe, so not only do we need a diverse education in CT for children of diverse backgrounds, but we need it for the non diverse children as well.

Let's make CT an example for the nation.

Christina Cewe
Madison CT resident.
