

Bill 457, Bill 738

Please end the nonsense of regional schools. We have already lost so much of the middle class and so many business because people don't want to live here. Pulling our kids out of their schools makes it worse and is unfair to all our kids. Just bring back middle class jobs and people since they pay most of the taxes. Don't ruin our school system. Cut waste. Cut corruption. Keep the schools the way they are. We are tired of being the worst of the 50 states. Don't make things worse. Our friends and family are moving out of state. Don't give them more reasons to do so.

Rosemary Addario
