

I am writing to express my **strong opposition to forced school regionalization**.

It will not save money and it will especially **harm school quality**, which is something that is especially important to me given that my **daughter has been diagnosed with dyslexia** and **relies upon quality**, thoughtful, conscientious **Special Education** that she has been receiving thus far in the Wilton School system.

I am certain that she would not receive an equally quality education should this regionalization bill pass and our school district is combined with the Norwalk School system.

I ask you to **please oppose SB 457**.

Thank you!

Amy, John and Sarah Dickerson

Wilton, CT
